About ACM Multimedia Asia 2019

The first ACM Multimedia Asia, puts together the long-lasting experience of former PCM and ICIMCS, which both have good history as well as attending experiences. It is a newly established international conference to showcase the scientific achievements and industrial innovations in the multimedia field. Its mission is to illuminate the state of the art in multimedia computing by bringing together researchers and practitioners in this field. In 2019, ACM Multimedia Asia will be held in Beijing, China with an extensive program that includes technical sessions covering all aspects of the multimedia field in forms of oral and poster presentations, tutorials, panels, demonstrations, workshops, doctoral symposium and grand challenge competitions.

Call for Contributions:

ACM Multimedia Asia 2019 is welcoming a number of different contribution types:

- Regular Scientific Papers
- Brave New Idea Papers
- Multimedia Grand Challenge Competition
- Technical Demonstrations
- Workshops
- Tutorials
- Panels
- Doctoral Symposium

ACM Multimedia Asia 2019 calls for research papers presenting novel theoretical and algorithmic solutions addressing problems across the domain of multimedia and related applications. The conference also calls for papers presenting novel ideas and promising (preliminary) results in realizing these ideas. The topics of interest include but are not limited to:

- Multimedia and Vision
- Multimodal Analysis and Description
- Deep Learning for Multimedia
- Emotional and Social Signals In Multimedia
- Multimedia Search and Recommendation
- Social Multimedia
- Multimedia HCI and Quality of Experience
- Multimedia Art, Entertainment and Culture
- Music and Audio Processing in Multimedia
